貴方にとって最も大切な事とは何ですか? I would very much make my living from comics so I'll put mostly all my mind to it and all my life to it. It is important for me to feel that I have a home that is not just a place where I live but a real resourcing environment of faith and trust. I need to bring something to my wife's life. I need to feel that she can rely on me and feel comfortable in my arms and I'd like her to be very supportive and believe in my career. So I want you to live well, in a wealthy atmosphere and that you feel loved. But of course if you getting married to me expect me to be very hard working and have a little time for vacation... But I'll be working home so I'll be around and I could always take an hour off to talk to you and take you in my arms...

今までに訪れた国 : Australia, India, Italy, Canada, Greece, Ireland, Scotland, Florida, France, Egypt...

I want to earn my life properly but I still have a way before living from it that might be long. I'm still studying, so I may not have that much money for a while but I believe that I'll succeed one day and continue practising my art all my life.

貴方の将来の希望や計画はどんなものですか? Make my living from my art and have a great family.

貴方の将来のパートナーへのメッセージ。 I want to live a great life with you. I want to bring you faith in life.
