貴方にとって最も大切な事とは何ですか? Throughout my childhood, my parents always told me how fortunate I was not to have an impoverished life and the importance of helping and caring for others, which I'm always trying to do. That is why I am often involved in volunteer work and community service, mostly involving counseling and youth mentoring.

将来、貴方のパートナーとなる人に、交際が進展する前に、是非知っておいて貰いたい事がありますか? はい いいえ — I was born and raised in the USA & am currently working and doing Ph.D. research in South Korea. I have been interested in Japanese culture since childhood and adapted very well to Japanese life when I previously lived in Japan. I actually cherish and miss my time in Japan, and feel that the people I met there (especially my professors) are akin to my own "family."

貴方の将来の希望や計画はどんなものですか? I hope to pursue a career in teaching & youth mentoring, and working side-by-side with my future wife to build a happy life together.

貴方の将来のパートナーへのメッセージ。 My ideal type is a woman who can be my "best friend" ... someone who is sincere, kindhearted, and with a warm smile. My future wife would be someone with whom I can share my feelings and talk to about anything. When I was a child, I remember my mom telling me: "A love that blossoms from friendship is an everlasting love." I still believe in those words.
