This is hard to answer. I was born in east Germany in 1988, two years before Germany became reunited. In my childhood I still experienced what equal rights (like part of socialism) are and therefore I think modern feminism is a scam. I hate feminism. But I also expect my wife and me to share both earning money and raising children. Also, I hate death penalty (both parts of Germany abolished it before I was born) because I think life is the most valuable thing any person has, so valuable that you shouldn't take it even from a criminal.

貴方の将来の希望や計画はどんなものですか? I want to own (not rent) an apartment or a house, be married and have children.
This is what I wish to happen. Career is not a goal, it's a mean to make money to support these dreams.
