I take time to understand somebody, I don't judge quickly, I think that the best of a man or a woman is in her mind, it could take some time to discover and patience is a very important character. I know Japanese politeness after living 25 years with a Japanese woman, I'd like to improve my Japanese language, traveling in remote Japanese country, discovering the so many hot springs.

貴方の将来の希望や計画はどんなものですか? I wish to find a woman to share my passion about hot spring, help me with my project about it, I will care for her every day.

貴方の将来のパートナーへのメッセージ。 With my former job in Air France I can travel (and make you travel) easily, I'd love to spare time with my wife between France and Japan.
