I have dual USA/Italian citizenship. I own an apartment in Manhattan, but I would like to spend at least part of the year living in Italy as well as Japan. I also would like to set aside one month per year to see a different country. I used to go to Miami every summer so in the future I would like to visit there as well. This year in 2025 I am going to Rome from June 1 until August 31st. Then later in the year I will be in Tokyo from October 24 until January 4th visiting my son.

貴方の将来の希望や計画はどんなものですか? I would like my partner to know that I would always support her. She does not need her to work as I should be able to provide for her financially. I work remotely so I would not mind living in Japan and travelling to other places for vacation. As long as I can go to Italy each year, I would be flexible about where to live.

貴方の将来のパートナーへのメッセージ。 My hope for the future is to find someone I can spend the rest of my life with. I would like to visit different places especially those that have a warm tropical climate. I am always working hard in my business and trying to succeed.
